

Fidget Spinner Evaluation

A photograph of my finished spinner:

Part of the design criteria was to design and make a spinner for children aged between 7 and 11. What do children of this age think about your finished design? You could either ask for their ideas or let them write their thoughts in this box.

What do you like most about your spinner?

How could you make your spinner even better?

What would you score your finished spinner out of 10? /10

Fidget Spinner Evaluation

Part of the design criteria was to design and make a spinner for children aged between 7 and 11. What do children of this age think about your finished design? You could either ask for their ideas or let them write their thoughts in this box.

Do you like the finished product? Why?

How could you improve on your spinner?

Fidget Spinner Evaluation

Did you face any problems? If yes, how did you overcome them?

If you could give one piece of helpful advice to someone who is about to make a spinner, what would it be?

What would you score your finished spinner out of 10? /10
