

Risk Assessment

Establishment operation from 1 September 2021: response to Coronavirus (COVID-19). Issue 6.0 updated to 6.1 13th September 2021 (Further detail is captured in the Background and Context description below)

Section 1:

Date of Assessment: 03/09/2021	MAT/Establishment/Section/Team: Lansdown Park Academy	Review date: Updates with Government Guidance	
Assessed by: Nick Lee-Wells Paul Todd Beccy Wainwright Emma Moorcroft Kate Truscott Alix Jepps Victoria Jones	1.	Date:

- **Rationale for guidance for settings from September 2021**
- **Contingency Planning**
- **Control Measures**

Part B: Control measures

- 1. Ensure good hygiene for everyone**
- 2. Maintain appropriate cleaning regimes**
- 3. Keep occupied spaces well ventilated**
- 4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19**
- 5. Use of face coverings**
- 6. Use of personal protective equipment**
- 7. setting workforce**
- 8. Pupil wellbeing**
- 9. Provision of first aid and administration of medication**
- 10. Lettings**
- 11. Educational visits**
- 12. Setting reception areas**
- 13. Afterwards and breakfast clubs**

Part A: Background and Context

This risk assessment has been developed with reference to:

- settings Covid-19 operational guidance (July 2021) [settings COVID-19 operational guidance \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/95427/settings-covid-19-operational-guidance-july-2021.pdf).
- Actions for early years and childcare providers during the COVID-19 pandemic (July 2021) [Early years and childcare: coronavirus \(COVID-19\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/95427/early-years-and-childcare-covid-19-guidance-july-2021.pdf)
- SEND and specialist settings: additional COVID-19 operational guidance (6 July 2021) [SEND and specialist settings - additional operational guidance: COVID-19 \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/95427/send-and-specialist-settings-covid-19-operational-guidance-july-2021.pdf)

Rationale for guidance for settings from September 2021.

Government guidance has been developed on the premise that disruption to children and young people's education must be minimised. The [Evidence summary: COVID-19 - children, young people and education settings - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/95427/evidence-summary-covid-19-children-young-people-and-education-settings-july-2021.pdf) sets out the evidence relevant to, and in support of, the government's decision to revise the guidance on the COVID-19 safe working and protective measures that have been used within settings, colleges and early years settings in England during the pandemic.

In making this decision, the government has balanced education and public health considerations – weighing the impact of these measures on teaching, educational attainment, the health and wellbeing of children, pupils, students and staff and the functioning of settings, colleges and early years settings, against the COVID-19 risks in a context that has now fundamentally changed due to the success of the vaccination programme.

Contingency Planning

Government guidance requires settings to have an Outbreak Management Plan (sometimes called contingency plan) outlining how they would operate if any of the following circumstances applied to their setting or area.

- a COVID-19 outbreak within a setting

- if there is extremely high prevalence of COVID-19 in the community and other measures have failed to reduce transmission
- as part of a package of measures responding to a Variant of Concern (VoC)

This includes how we would ensure every child, pupil or student receives the quantity and quality of education and care to which they are normally entitled.

If necessary we will reinstate relevant control measures from our 2020-21 risk assessment to address the areas set out in [Contingency framework: education and childcare settings - GOV.UK \(www.gov.uk\)](#)

Control Measures

This risk assessment addresses the essential control measures set out in the government guidance referred to above. They are as follows:

settings should

- 1. Ensure good hygiene for everyone.**
- 2. Maintain appropriate cleaning regimes.**
- 3. Keep occupied spaces well ventilated.**
- 4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.**

We have adapted this risk assessment in consultation with relevant partners including trade union representatives where available. This risk assessment will be made publicly available to those who wish to see it.

Part B:

What is the Task/Activity or Environment you are assessing?	What Hazards are present or may be generated? (Use a row for each one identified)	Who is affected or exposed to hazards?	What Severity of Harm can reasonably be expected? (See Table 1)	What Precautions (Existing Controls) are already in place to either eliminate or reduce the risk of an accident happening?	What Likelihood is there of an accident occurring? (See Table 1)	What is the Risk Rating? (See Table 2 and 3)
1: ENSURE GOOD HYGIENE FOR EVERYONE						
Hand hygiene	Poor hand hygiene increases the likelihood of infection from coronavirus	Pupils and staff	Serious	Opportunities are provided for staff and pupils to clean their hands with soap and water and dry thoroughly: <ul style="list-style-type: none"> ● on arrival at setting ● after using the toilet ● after breaks and sporting activities ● before food preparation ● before eating any food, including snacks ● before leaving setting ● after sneezing/coughing. Covered bins available for disposal of paper towels will be emptied periodically during the day. Signage about how to wash hands properly, is on display and reinforced with pupils. Where sinks are not easily accessible hand sanitiser will be available. Supervision by staff is provided as needed.		
Respiratory Hygiene	Poor respiratory hygiene increases the likelihood of infection from exposure to coronavirus.	Pupils and staff	Serious	Catch it, kill it, Bin it – tissues are available in all classrooms, staffroom and reception at a minimum. The message is reinforced with pupils.		

				Covered bins are available for the disposal of used tissues.		
2. MAINTAIN APPROPRIATE CLEANING REGIMES						
Cleaning	Person contracts COVID 19 as a result of inadequate cleaning	Pupils and staff	Serious	<p>WE HAVE REVIEWED THE CLEANING ARRANGEMENTS SET OUT BELOW TO ENSURE THAT ALL HIGH-RISK AREAS ARE COVERED IN OUR SCHEDULE</p> <p>Our contract cleaning (Stockwood): We have reviewed the cleaning specification with our cleaning contractor to ensure that this meets requirements set out in https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings</p> <p>For our own cleaners (Rush Hill): Our cleaning specification has been reviewed to ensure we comply with requirements set out in https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings</p> <p>Where our own cleaners and/or additional staff are required to undertake cleaning duties we have ensured that they have received appropriate training and are provided with PPE, as set out in guidelines above. This also applies to other staff who may be asked to carry out cleaning duties during this period.</p> <p>We have identified cleaning of high-risk areas to be undertaken throughout the setting day to include:</p> <ul style="list-style-type: none"> ● Door handles ● Kettles ● Taps ● Switches ● Phones ● Laptops / ● Printers and photocopiers ● Staffroom/ food preparation 		

				<ul style="list-style-type: none"> Surfaces that pupils are touching e.g.: toys, books, chairs, tables, doors, sinks, toilets, bannisters, light switches, etc. <p>Rush Hill and Stockwood are cleaned on a daily basis who follow the cleaning procedures as above. All staff have access to sanitising wipes who will use these to wipe down desks and handles after each lesson.</p> <p>The Key is cleaned via Broadlands Academy every day. Teachers and support staff have access to sanitiser wipes to use in frequent use areas including classrooms, staff rooms and social spaces.</p>		
Safe use of cleaning products	Inappropriate exposure to cleaning product results in allergic reaction/ poisoning etc Storage arrangements of cleaning product change increasing potential for unauthorised 'use' by pupils.	Pupils and staff	Serious	All staff involved in cleaning duties will receive training re: safe use and storage of cleaning materials. PPE will be provided for all cleaning activities. Safety data sheets for cleaning products are available. Only recommended cleaning products will be used.		
	Use of hand sanitiser: potential for improper use and ingestion.	Pupils and staff	Serious	We are providing/allowing the use of hand sanitisers that contain at least 60% alcohol. Staff supervision provided as required We have obtained the Safety Data Sheet for the product(s) They advise on action to be followed if the sanitiser is not used as designed i.e., a child drinks some; it gets in eyes etc. This will also help with potential reactions to the product. We have and will secure adequate supplies of the product and provide it, especially in areas such as reception to the building(s). Nick Farrow – Information at Stockwood		

				Chris – The Key Jamie Fry – Rush Hill		
--	--	--	--	--	--	--

3. KEEP OCCUPIED SPACES WELL VENTILATED

Ventilation (Open windows and doors are recommended as a means of improving air circulation within the building)	Falls from height (open windows)	All premises occupants	Serious	Whilst taking into consideration the necessity to increase ventilation by improving air circulation within the building we have advised staff that window opening restrictors must not be removed.		
	Additional doors and windows are left open compromising site security/fire safety.	All premises occupants	Serious	We have reviewed our site and identified doors that could remain open without compromising fire safety/ and or security. Here, for high-risk areas such as kitchens and boiler rooms fire doors will be kept in the closed position. Lower risk rooms such as classrooms and offices may be propped open with removeable things - a weight or wedge - if there are people present who will be tasked with removing it if the alarm goes off and at the end of the day. Door guards etc, will continue to be used to improve circulation in the building (and also reduce the need for touching the door handles). We have assessed our doors and all doors across corridors across all sites and as they act as fire doors – they must remain closed.		

	<p>Inadequate ventilation contributes towards the spread of coronavirus. Open windows in the winter months mean that the temperature in buildings is uncomfortable.</p>	<p>All premises occupants</p>	<p>Serious</p>	<p>We will ensure that our building is heated to a temperature whereby staff and pupils can work comfortably whilst endeavouring to ensure that there are measures in place to ensure good ventilation.</p> <p>This will be achieved by a variety of measures including:</p> <ul style="list-style-type: none"> ● natural ventilation – opening windows (in cooler weather windows will be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air ● We do not have any mechanical Ventilation across our sites. ● natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so) <p>We note the following advice from HSE: https://www.hse.gov.uk/temperature/thermal/managers.htm https://www.cibse.org/coronavirus-covid-19/coronavirus,-sars-cov-2,-covid-19-and-hvac-systems</p> <p>NB: Minimum workplace temperature is 16 degrees centigrade.</p> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, the following measures will also be used as appropriate:</p>		
--	---	-------------------------------	----------------	---	--	--

				<ul style="list-style-type: none"> • opening high level windows in preference to low level to reduce draughts • increasing the ventilation while spaces are unoccupied (e.g., between classes, during break and lunch, when a room is unused) • providing flexibility to allow additional, suitable indoor clothing. Including advising staff and pupils re: the value of layering clothing. • rearranging furniture where possible to avoid direct drafts 		
--	--	--	--	--	--	--

4. FOLLOW PUBLIC HEALTH ADVICE ON TESTING, SELF ISOLATION AND MANAGING CONFIRMED CASES OF COVID-19						
Engagement with the NHS Test and Trace Process. Access to testing	Failure to follow PHE/ NHS Test and Trace procedures increases the likelihood of exposure to coronavirus in the setting community.	Pupils and staff	Serious	<p>Relevant staff understand the NHS Test and Trace process and how to contact their local Public Health England health protection team.</p> <p>Where necessary we will direct members of the setting community with symptoms of coronavirus to Get a free PCR test to check if you have coronavirus (COVID-19) - GOV.UK (www.gov.uk)</p> <p>Home test kits are available in our setting and will be offered in the exceptional circumstance that we believe an individual may have barriers to accessing testing elsewhere. We note that it is for settings to determine how to prioritise the distribution of their test kits in order to minimise the impact of the virus on the education of their pupils, and will</p>		

				<p>therefore provide these to staff or pupils on the basis of an agreed set of criteria to be determined by the setting. https://www.gov.uk/government/publications/coronavirus-covid-19-home-test-kits-for-settings-and-fe-providers/coronavirus-covid-19-home-test-kits-for-settings-and-fe-providers We will ask parents and staff to inform us immediately of the results of a test.</p>		
Contact with infected persons/ exposure to the virus within the setting.	Person contracts coronavirus as a result of direct contact with an infected person (or a symptomatic person) entering the premises.	Pupils and staff	Serious	<p>Guidance has been issued to the entire setting community. If anyone in the setting becomes unwell with a new and persistent cough or a high temperature, or has a loss of or change in, their normal sense of taste or smell (anosmia), they must stay at home and are advised to follow guidance for households with possible or confirmed coronavirus (COVID-19) infection: Stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection - GOV.UK (www.gov.uk)</p> <p>On 16 August, the rules on self-isolating as a contact will change for people who are fully vaccinated (full vaccination: 14 days after the second dose for two-dose vaccines), and for under 18s. Those not fully vaccinated will still need to isolate if they are contacts (10 days), and everyone will still have to isolate if they test positive, to protect themselves and others.</p>		
	Contact with those developing symptoms of the virus during the working day.	Pupils and staff	Serious	<p>If anyone in our setting develops COVID-19 symptoms, however mild, they will be sent home and advised to get a PCR test and follow public health advice. When to self-isolate and what to do - Coronavirus (COVID-19) - NHS (www.nhs.uk)</p>		

				<p>If a child is awaiting collection, they will be moved, via a route involving the shortest possible internal distance (i.e., including an outside route where possible) if possible, to Meeting room at Stockwood Break out room at Rush Hill Nurture Room at The Key</p> <p>where they can be isolated behind a closed door, depending on the age of the child and with appropriate adult supervision if required. Ideally, a window will be opened for ventilation. If it is not possible to isolate them, we will move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, we endeavour that they will use a separate bathroom if possible. The bathroom will be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE will be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs).</p> <p>In an emergency we will call 999 if they are seriously ill or injured or their life is at risk. We will not suggest a visit to the GP, pharmacy, urgent care centre or a hospital.</p> <p>Staff are instructed to wash their hands thoroughly for 20 seconds after any contact with someone who is unwell. We will clean the affected area with normal household disinfectant after someone with symptoms has left to reduce the risk of passing the infection on to other people. See https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings</p>		
--	--	--	--	---	--	--

<p>Lateral Flow Testing (Asymptomatic testing)</p>	<p>Non participation in Lateral Flow Testing means that asymptomatic cases are undetected within the setting community.</p>	<p>Pupils and staff</p>	<p>Serious</p>	<p>The opportunity for all adults in England to participate in lateral flow testing has been publicised amongst the setting community. Regular rapid coronavirus (COVID-19) tests if you do not have symptoms - NHS (www.nhs.uk) Our setting workforce (including regular contractors and visitors) has the opportunity and been provided with sufficient testing kits to participate in lateral flow testing twice a week at home and we will continue to request and promote that staff test twice weekly at home. In September 2021 we note this arrangement will also apply to all secondary pupils once two lateral flow tests have been completed at setting (3-5 days apart). Operation Leads at Rush Hill and Stockwood will have a system in place to ensure pupils have access to LFT kits to take home. We will also offer LFT testing on site for visitors or pupils who have been unable to test at home.</p>		
	<p>Lateral Flow Testing process is not implemented correctly leading to inaccurate results and/or inadequate follow up of positive test results</p>	<p>Pupils and staff</p>	<p>Serious</p>	<p>Confirmatory PCR tests Staff or pupils with a positive LFD test result must self-isolate in line with the stay-at-home guidance. They will also need to arrange a lab-based polymerase chain reaction (PCR) test to confirm the result. If the PCR test is taken within 2 days of the positive lateral flow test, and is negative, it overrides the self-test LFD test and the member of staff or pupil can return to setting.</p>		

<p>Management of confirmed cases of coronavirus</p>	<p>Failure to follow PHE/ NHS Track and Trace procedures increases the likelihood of exposure to coronavirus in the setting community.</p> <p>Anxiety and dissent within the setting community</p>	<p>Pupils and staff</p>	<p>Serious</p>	<p>We note that close contacts of those testing positive with coronavirus will be identified via NHS Test and Trace. We note that we may be contacted in exceptional cases to identify close contacts.</p> <p>Records will be kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test & Trace. Records will contain names and telephone numbers of visitors on site.</p> <p>We note that if we have two or more confirmed cases within 10 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, we may have an outbreak, and will work with our local health protection team who will be able to advise if additional action is required.</p> <p>Alternatively, the Head or Deputy (in Head's absence) will call the Department for Education's existing coronavirus (COVID-19) helpline number on 0800 046 8687, and selecting option 1. The advice service is open Monday to Friday from 8am to 6pm and 10am to 4pm on Saturdays and Sundays. The call will be with a dedicated team of advisors who will inform the setting of what action is needed based on the latest public health advice.</p> <p>Where applicable we will advise temporary staff of their entitlement to <u>Test and Trace Support Payments</u>, noting that this support is only for the temporary staff who settings decide not to engage in home working and who are not being paid during self-isolation. To be eligible for a Test and Trace Support Payment, the individual must be living in England, meet the eligibility criteria and be formally advised to self-isolate by NHS Test and Trace, who will provide the individual with an NHS Test and Trace Account ID.</p> <p>We will also extend this advice to parents/ carers of children who have been asked to self-isolate as they may be</p>		
---	--	-------------------------	----------------	--	--	--

				<p>applicable for this payment in some cases. Claiming financial support under the Test and Trace Support Payment scheme - GOV.UK (www.gov.uk)</p>		
NHS COVID-19 App	Inadequate response to alerts provided by use of NHS COVID-19 App	Pupils and staff	Serious	<p>Settings only needed to do contact tracing up to and including 18 July. Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.</p> <p>As with positive cases in any other setting, NHS Test and Trace will work with the positive case and/or their parent to identify close contacts. Contacts from a school setting will only be traced by NHS Test and Trace where the positive case and/or their parent specifically identifies the individual as being a close contact. This is likely to be a small number of individuals who would be most at risk of contracting COVID-19 due to the nature of the close contact. You may be contacted in exceptional cases to help with identifying close contacts, as currently happens in managing other infectious diseases.</p> <p>Individuals are not required to self-isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19, and any of the following apply:</p> <ul style="list-style-type: none"> they are fully vaccinated they are below the age of 18 years and 6 months 		

				<p>they have taken part in or are currently part of an approved COVID-19 vaccine trial</p> <p>they are not able to get vaccinated for medical reasons</p> <p>Instead, they will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. We would encourage all individuals to take a PCR test if advised to do so.</p> <p>Staff who do not need to isolate, and children and young people aged under 18 years 6 months who usually attend school, and have been identified as a close contact, should continue to attend school as normal. They do not need to wear a face covering within the school, but it is expected and recommended that these are worn when travelling on public or dedicated transport.</p> <p>18-year-olds will be treated in the same way as children until 6 months after their 18th birthday, to allow them the opportunity to get fully vaccinated. At which point, they will be subject to the same rules as adults and so if they choose not to get vaccinated, they will need to self-isolate if identified as a close contact.</p> <p>Settings will continue to have a role in working with health protection teams in the case of a local outbreak. If there is a substantial increase in the number of positive cases in a setting government offers the area an enhanced response package, a director of public health might advise a setting to temporarily reintroduce some control measures.</p>		
--	--	--	--	---	--	--

Containing any local outbreak	Disruption to pupils' education	Pupils and staff	Serious	<p>We note https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/923539/Remote Education Temporary Continuity Direction - Explanatory Note.pdf</p> <p>which makes it clear that settings have a duty to provide remote education for state-funded, setting-age children unable to attend our setting due to coronavirus (COVID-19). This came into effect from 22 October 2020.</p> <p>We have developed a Contingency Plan to ensure that the education of affected groups of pupils is maintained. This will include the provision of remote learning as set out in government guidance for the reopening of settings.</p>		
	Parents/carers of a child with symptoms of coronavirus refuse to keep them at home.	Pupils and staff	Serious	<p>If a parent or carer of a pupil with coronavirus or with a suspected case of coronavirus insists on their child attending your setting, we will take the decision to refuse the pupil if, in your reasonable judgement, it is necessary to protect other pupils and staff from possible infection with COVID-19. Our decision will be carefully considered in light of all the circumstances and current public health advice</p>		
5. USE OF FACE COVERINGS						
	Failure to use face covering in areas where it is difficult to maintain social distancing increases the likelihood of exposure to coronavirus in the setting community.	Pupils and staff	Serious	<p>Government guidance from 19 July 2021 is as follows: Government expects and recommends that people wear face coverings in crowded areas such as public transport".</p> <p>Moving to step 4 of the roadmap - GOV.UK (www.gov.uk)</p>		

				<p>Whilst face coverings are no longer mandatory in settings, we recognise that individual staff and pupils may still wish to wear these and will allow them to do this.</p> <p>NB: Use of face coverings could be reinstated as part of our Contingency Plan (See Section A).</p>		
<p>6. USE OF PERSONAL PROTECTIVE EQUIPMENT (PPE) (A face covering is not PPE because they are not designed to protect the wearer from infection from coronavirus).</p>						
<p>Use of Personal Protective Equipment (PPE) (Mainstream)</p>	<p>Incorrect use exacerbates the risk of further infection.</p>	<p>Pupils and staff</p>	<p>Serious</p>	<p>“The majority of staff in education settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others. PPE is only needed in a very small number of cases including:</p> <ul style="list-style-type: none"> • children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs should continue to receive their care in the same way • if a child, young person or other learner becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn” <p>We are complying with the above and are using our local supply chains to obtain PPE.</p> 		

				<p>We will ensure that, staff who are likely to have to support pupils in the circumstances identified above and potentially in the administration of some first aid have access to appropriate equipment and training in its correct use and disposal.</p> <p>See: https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/911313/PHE_quick_guide_to_donning_doffing_PPE_standard_health_and_social_care_settings.pdf</p>		
Use of Personal Protective Equipment (PPE) in Special settings	Incorrect use exacerbates the risk of further infection.	Pupils and staff	Serious	<p>Increased likelihood that staff will be exposed to bodily fluids in the course of their work will mean that the use of PPE will be risk assessed and relevant equipment provided where applicable.</p> <p>The following link is used as our guidance at present: SEND and specialist settings - additional operational guidance: COVID-19 (publishing.service.gov.uk)</p>		
7: SETTING WORKFORCE						
Staff wellbeing	Staff anxiety re: potential exposure to the virus.	All staff	Serious	<p>Where necessary Individual discussions are held with staff to identify concerns. (NB: recognising that some could be experiencing bereavement, mental health issues, etc.). We have signposted to relevant counselling services. Including the Education Support Partnership which provides</p>		

				<p>a free helpline for setting staff and targeted support for mental health and wellbeing. Staff can also access the Schools Advisory Service (SAS) by calling 01773814400 HR advice is available if required.</p>		
<p>Staff training (including induction for supply teachers and other visiting staff).</p>	<p>Staff are not aware or do not understand the requirements for working safely.</p>	<p>All staff</p>	<p>Serious</p>	<p>In preparation for a full return on 1 September 2021 training and written instruction were provided re: operating procedures outlined in this risk assessment to all staff.</p> <p>This includes:</p> <ul style="list-style-type: none"> ● What to do if they suspect that they or a member of their household has coronavirus (including testing arrangements) ● Day to day organisations and procedures including arrangements for cleaning, ● Procedures to follow if they suspect that a child in their group is displaying coronavirus symptoms ● Site security and fire safety including evacuation and lockdown procedures. <p>Use of PPE (where applicable).</p>		
<p>Individual staff requirements</p>	<p>Concerns from staff in identified work groups</p>	<p>Clinically extremely vulnerable</p>	<p>Fatal/ Major</p>	<p>We have taken note of government guidance issued on 12/07/21 19 July guidance on protecting people who are clinically extremely vulnerable from COVID-19 - GOV.UK (www.gov.uk)</p> <p>We will continue to discuss with CEV employees how they can be supported to carry out their duties in the workplace.</p>		

	Concerns from staff in identified work groups	Pregnant women	Serious	We will follow the specific guidance for pregnant employees because pregnant women are considered CV. In some cases, pregnant women may also have other health conditions that mean they are considered CEV, where the advice for clinically extremely vulnerable staff will apply. We will follow the same principles for pregnant pupils, in line with our wider health and safety obligations. NB Further guidance and advice on coronavirus (COVID-19) and pregnancy from the Royal College of Gynaecologists .		
Use of volunteers	Potential for the introduction of coronavirus into the setting	Pupils & Staff	Serious	Volunteers may be used to support the work of the setting, as would usually be the case. All volunteers will be expected to follow our control measures to reduce the spread of coronavirus.		
8: PUPIL WELLBEING						
Management of expectations within the setting community	Anxiety within the setting's community re: prevalence and effectiveness of infection control measures.	All members of the setting community	Serious	Our communication with parents and pupils prior to our return in September 2021 will include information about the control measures within this risk assessment. Government guidance for parents is available at: What parents and carers need to know about early years providers, settings and colleges - GOV.UK (www.gov.uk)		
Individual pupil medical requirements	Increased likelihood of serious illness resulting from exposure to coronavirus.	Extremely clinically vulnerable pupils (shielded)	Fatal/ Major	All CEV pupils should attend their setting unless they are one of the very small number of pupils under paediatric or other specialist care and have been advised by their GP or clinician not to attend. Where a pupil is unable to attend our setting because they are complying with clinical or public health advice, we will immediately offer them access to remote education. settings should keep a record of, and monitor engagement with this		

				<p>activity but this does not need to be formally recorded in the attendance register.</p> <p>Where children are not able to attend our setting as parents are following clinical and/or public health advice, absence will not be penalised.</p> <p>Vulnerable staff of pupils are able to be in school.</p>		
9: PROVISION OF FIRST AID AND ADMINISTRATION OF MEDICATION						
Provision of first aid	Inadequate first aid treatment exacerbates injury or pre-existing conditions.	Pupils and staff	Serious	We will revert to our substantive risk assessment which includes control measures to ensure that suitably qualified staff are available at all times.		
Administration of medication	Illness or injury to those who are unable to access their medication	Pupils and staff	Fatal/ major	Setting procedures for the administration of prescription and controlled medication will continue to apply across all 3 sites.		
10: LETTINGS						
Lettings	setting control measures re: cleaning etc are compromised leading to increased risk of infection, expense and possible reputational damage.	Pupils Staff Wider community	Serious	We do not currently let our settings.		
11: EDUCATIONAL VISITS						
Educational visits	Exposure to infection from inadequate social distancing etc	Pupils and staff	Serious	We will undertake full and thorough risk assessments in relation to all educational visits to ensure they can be undertaken safely. As part of this risk assessment, we will consider what control measures need to be used to reduce the risk of exposure to coronavirus and follow wider advice on visiting indoor and outdoor venues.		

				<p>OEAP National Guidance will be followed (see Contents (oeapng.info))</p> <p>We do not have plans for residential or international trips or visits.</p> <p>Staff will continue to remind pupils of careful routines through offsite transitions. Sanitise on and off the bus, bus ventilation and use of face masks (voluntary)</p>		
12: SETTING RECEPTION AREAS						
Setting Reception areas	Exposure to infection from inadequate social distancing: visitors to setting.	Pupils and staff	Serious	<p>Signage has been erected to advise visitors of hygiene protocols.</p> <p>Staff signing in arrangements - sanitiser available to clean hands after use.</p> <p>Hand sanitiser will be provided to all persons entering premises with signage to explain control measures etc.</p>		
	Violence and aggression towards setting staff causes injury and distress	Pupils and staff	Serious	<p>We will maintain transparency and regular contact with all members of the setting community.</p> <p>Regular briefings/updates for all staff so that they are aware of setting response to the COVID 19 virus and can communicate consistently to those who ask.</p> <p>Readiness to deploy the range of behaviour remedies if behaviour becomes unacceptable from warning to full banning from site/sect 547 warnings/action.</p>		

13: AFTERWARDS AND BREAKFAST CLUBS						
Afterwards and Breakfast Clubs	Arrangements for infection control, social distancing etc are not practised at Breakfast and Afterwards Club thus increasing the risk of infection within the setting community.	All members of the setting community	Serious	Updated guidance for operating may be found as follows: Protective measures for holiday or after-setting clubs and other out-of-setting settings for children during the coronavirus (COVID-19) outbreak - GOV.UK (www.gov.uk) Breakfast club is only available to our pupils as part of morning wellbeing.		

Action plan:

What is the Hazard you need to Control? (Medium to high from the risk rating above)	What additional precautions do you need to either eliminate or reduce the risk to an acceptable level?	Who is responsible for implementing these controls?	When are these controls to be implemented (Date)?	When were these controls implemented (Date)?

Table 1: Definitions

Potential Severity of Harm	Meaning of the harm description	Likelihood/Probability of Harm	Meaning of likelihood/probability
Fatal/Major Injury	Death, major injuries or ill health causing long term disability/absence from work.	High (Likely/probable)	Occurs repeatedly/ to be expected.
Serious Injury	Injuries or ill health causing short-term disability/absences from work (over three days absence)	Medium (possible)	Moderate chance/could occur sometimes.
Minor Injury	Injuries or ill health causing no significant long-term effects and no significant absence from work.	Low (unlikely)	Not Likely to occur

Table 2: Risk rating matrix: Potential severity of harm + Likelihood/ probability of Harm = Risk rating

	High (Likely/Probable)	Medium (Possible)	Low (Unlikely)
Fatal/Major Injury	VERY HIGH	HIGH	MEDIUM
Serious Injury	HIGH	MEDIUM	LOW
Minor Injury	MEDIUM	LOW	LOW

Table 3: Action required: Key to ranking and what action to take

VERY HIGH Risk	STOP ACTIVITY! Take action to reassess the work/activity and apply reduction hierarchy before proceeding.
HIGH Risk	Action MUST be taken as soon as possible to reduce the risks and before activity is allowed to continue.
MEDIUM Risk	Implement all additional precautions that are not unreasonably costly or troublesome within an agreed timeframe. Reduce risk to a tolerable level.
LOW Risk	Monitor and review your rolling programme.

Schools can refuse pupils who are showing symptoms.
