

At Lansdown Park Academy, we work to promote positive Mental Health & Wellbeing through all that we do.

Our academy offers Learning Mentors, Nurture Groups, Speech & Language Therapists, Educational Psychologists, Primary Mental Health Specialists and a School Nursing Team.

All of these services offer a range of different interventions that can help support the Mental Health & Wellbeing of our students.

In addition to the services available within the academy, we work with all parents and carers in helping to gain access to relevant support available from the many agencies in and around Bristol.

If you would like further advice regarding support around Mental Health & Wellbeing, please contact Lansdown Park Academy to discuss further.

Alternatively, please follow the link below to access the Emotional Health & Wellbeing Directory for Bristol.

This will provide you with information about the many services available and how to access them.
